

IMPORTANT CHANGES to One Day Bath Remodel Projects

Due to the COVID-19 Pandemic crisis, we have had to make changes to our plumbing inspection program in order to protect our inspectors and homeowners. **Effective Immediately you will be required to request a remote inspection of all newly installed “one day bath remodels”. This inspection will require that you obtain specific photographs of your completed installation before you leave the home.**

These Pictures must include:

- 1. Rough Valve Body**
- 2. Drain**
- 3. Check Hot Water Temp and include picture**
- 4. Full picture of finished job with surround in place and fully caulked**
- 5. Additional pictures may be required at the inspector’s discretion**

Once your inspection is complete and photographs are obtained, please request an inspection via our website at <https://myfcph.org/environmental-health/plumbing>. ***In the Comments section at the bottom of the form please include “Remote Inspection Request” and submit.

We will then contact you to request the photographs so that the inspector can review. Inspection results will be sent to you via email.

Thank you in advance for your cooperation. If you have any questions regarding these remote inspections, please call Sandy Cameron at 614-525-3635 or Ryan Wilkins at 614-525-4985.
